

# Poster Prep

## DVCON 2012 POSTER REQUIREMENTS

**Your poster must provide details of the contribution. In particular, it must include the following:**

- Title, name of author(s), affiliation, and email addresses
- Explanation of the context and motivation of the contribution
- Details of the innovation
- Explanation of results. Use charts, graphs or tables: we want to know the bottom line
- Discussion of conceptual limitations of tools and of future tool improvement
- Summary

Please note that company logos should only appear in a limited and tasteful way.

### **Physical poster requirements:**

There will be approximately 10 posters displayed on the 2nd floor in the DoubleTree Hotel adjacent to the technical session rooms. Be sure to bring your physical poster. Please note that DVCON will not supply any printer, output or production services. We will provide for each poster an area that is 36 inches by 36 inches. You are free to use this area in any way (e.g., one large poster, multiple 8.5"x11" sheets, etc.). We will provide thumbtacks (pushpins) to hang your poster on provided cork boards. (*Foam core does not work well for poster display since the push pins are standard length and won't reach through the foam and the board.*) You are required to register for the conference and stand next to your poster during the poster session, and to interact with attendees. This is an opportunity for you to provide details to attendees (as well as, for example, any hard copy handouts you wish to bring to the poster session), to have lively, one-on-one discussions, and to make contacts.
